

Small Group Packages

At GTI, we understand the high demand for goalies to be a part of team practices. Especially at older ages, it can be challenging for a coaching staff to allocate dedicated time for a goaltending consultant to work with both team goalies. Weekly Small Group Sessions provide an excellent option for teams to send their goaltenders to us, ensuring their development is reinforced in a controlled focused environment.

BENEFITS OF SMALL GROUP SESSIONS

Goalies develop differently when surrounded by other goalies pushing toward the same goal. At GTI, every session is built to create progressive development. Week after week, reps become more intentional, habits become more consistent, and development becomes more consistent.

One of the biggest advantages of small group sessions is learning from each other. Every goalie brings different strengths, habits, compete levels, and movement patterns to the ice.

PACKAGE OPTION #1
